

## Why give regularly?

By setting up a Direct Debit through your bank, it helps us to plan ahead more effectively.

### Why Regular Giving

A regular gift given by setting up a standing order allows us to plan ahead more effectively, knowing that we have funds coming in each month to help support our services. Even just £5 a month can make a huge difference to our patients, their families and carers. That is £5 we know we have coming.

Most of our money goes on paying for the nursing and medical staff that deliver the very special care - by setting up a [Direct Debit](#) payment, you are helping us to secure this service for the future.

Thank you.
