

All that Glitters...

Recycling to help charity is one of the easiest ways to help a worthwhile cause without it hitting your pocket.

Many people would like to help us but have little in the way of spare money. If this is you - here is a handy way you can clear out your odd earrings, broken watches and out of date necklaces!

Any old jewellery that you have lurking in forgotten boxes that is made from precious metal or stones can be recycled either in our charity shops or by melting and recycling. The money you raise will help fund more nurses and other healthcare professionals, as well as practical and emotional help for families coping with life-limiting illnesses.

Donating in this way couldn't be easier - simply drop your jewellery into one of our 22 hospice shops (for a list of our shops [click here](#)) or bring it into one of our inpatient units in Taunton and Yeovil.

[Click here](#) to download an "All that Glitters" form to print off, fill in and take into a shop or hospice with your donation. Please do NOT send any jewellery to us in the post - take it into a Hospice Shop or an Inpatient Unit.
