

MYTH - St. Margaret's Somerset Hospice is part of the Macmillan cancer charity Reality.

St. Margaret's is an independent local charity. The nurses working locally in Somerset are likely to be St. Margaret's nurses. Macmillan nurses in Somerset are all currently hospital based and not working in the community. St. Margaret's works closely alongside other charities to help provide the best service possible and we partner Macmillan, Marie Curie Cancer Care and Somerset Cancer Care to make this happen.
